### WORK EXPERIENCE

Jan 2023 – Present

- Transformed 5+ PSD designs into pixel-perfect, fully responsive websites, ensuring seamless user experience across all modern browsers.
- Built scalable front-end components using HTML5, CSS3, and JavaScript (ES6+) for businesses in food, finance, and services domains.
- Collaborated directly with clients to identify UI/UX goals, reduce bounce rates by optimizing layouts and accessibility standards.
- Integrated third-party APIs (e.g., weather, maps) into custom web applications to deliver real-time interactive content.
- Streamlined front-end performance by implementing lazy-loading, minifying assets, and optimizing image delivery.
- Debugged and resolved UI issues using browser dev tools and version control through GitHub, ensuring consistent deployment practices.
